**Amendment #1 to**  
**REQUEST FOR PROPOSALS TO PROVIDE PROFESSIONAL FORESTRY OR LANDSCAPE SERVICES AT THE**  
**INLAND BAYS WASTEWATER TREATMENT PLANT,**  
**29445 Inland Bays Rd, Millsboro, DE 19966**  
**Date of Advertisement: July 14, 2025**  
**Deadline for Receipt of Proposals: August 15 , 2025, 3:00 pm**

The Delaware Center for the Inland Bays (the Center), a National Estuary Program, issued the afore-mentioned Request for Proposals on July 14, 2025, and conducted a non-mandatory pre-bid meeting, via Zoom, on July 22, 2025.

As a result of a question asked by an attendee, the Center hereby issues Amendment #1 to Task 5 (page 4):

“Task 5: Install Tree Protection. Install a minimum of 4 feet tall (48 inches) tree guards, stakes, netting, etc. (Tree Tube or similar) to protect saplings from climate and grazing. 13,000 tree guards will be installed, proportional to each plot. 135 wire cages typical of the “micro forest” style of planting will be installed by the contract awardee at locations.”
