- We are not alone in dealing with use of money to force compliance with the White House's anti-DEI policy. For example:

1. How does the White House eliminating environmental justice impact CIB's Community Engagement Committee

2. Black Summit 2026 will address negative environmental impacts on Black communities in DE. Support from CIB enables a successful program on September 9th and planned post-Summit action groups planned after the conference throughout the state.
