Independent Auditor's Report

The Honorable Mayor and Members of the City Council
Creeks of Legacy Public Improvement District
Celina, Texas

Opinion

We have audited the financial statements of the Creeks of Legacy Public Improvement District (PID) as of and for the years ended September 30, 2024 and 2023 and the related notes to the financial statements, which collectively comprise the PID's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the PID, as of September 30, 2024 and 2023, and the changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the PID and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the PID's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the PID's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the PID's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Overview of the Financial Statements

This annual report consists of two parts – (i) Management’s Discussion and Analysis and (ii) the basic financial statements consisting of a *Statement of Net Position*, *Statement of Revenues, Expenses, and Changes in Net Position*, *Statement of Cash Flows*, and related footnotes. The Statement of Net Position represents the financial position of the PID and provides information about the activities of the PID, including all short-term and long-term financial resources and obligations. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources and all liabilities are included in the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Net Position presents increases (e.g., revenues) and decreases (e.g., expenses) in net total financial position. The Statement of Cash Flows reflects how the PID finances and meets its cash flow needs. Finally, the notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided on the basic financial statements.

	<u>2024</u>	<u>2023</u>	<u>2022</u>
Operating Revenues	\$ 2,135,635	\$ 2,427,202	\$ 2,405,483

Bonds were not issued in fiscal year 2024, and, therefore, these costs are not reflected in fiscal year 2024, resulting in an increase in change in net position.

The City is located in north central Collin and Denton Counties, forty miles north of Dallas and fifteen miles northwest of the City of McKinney. The land in the PID is being developed by CTMGT Frontier 80, LLC (the “Developer”). The PID consists of approximately 373 acres and is projected to consist of 1,041 lots and the infrastructure necessary to provide road, water distribution, sanitary sewer, and storm drainage improvements to the PID.

The PID Bonds are intended to be paid primarily from annual assessments imposed by the City and collected by the Collin County Tax Assessor Collector (the “CCTAC”) on behalf of the City against the properties benefiting from the public improvements of the PID. If an annual special assessment is not paid in full, the PID Act authorizes the City to collect interest and collections costs on the outstanding annual special assessments. The City covenanted in the Phase #1 Indenture, the Phase #1B Indenture, the Phase #2 Indenture, the Phases #2-3 Indenture, the Phase #3 Indenture, the Phase #1 Refunding Indenture and the Phases #2-3 Refunding Indenture (together the “Indentures”) that it will take and pursue all actions permissible under applicable laws to cause the annual installments of special assessments to be collected and any resulting liens enforced.

Effective in fiscal year 2024, the TIRZ revenues will be used to pay the Phase #1 Refunding Bonds and the Phases #2-3 Refunding Bonds, (the “Refunding Bonds”).

The PID’s management believes these financial statements present all activities for which the PID is financially accountable.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed in the preparation of these financial statements are summarized below. The policies conform to generally accepted accounting principles (GAAP) for local governmental units as prescribed in the statements issued by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources.

A. Basis of Presentation

The PID's basic financial statements consist of a Statement of Net Position, a Statement of Revenues, Expenses, and Changes in Net Position, and a Statement of Cash Flows. The PID uses enterprise fund accounting to maintain its financial records during the fiscal year. Enterprise fund accounting focuses on the determination of operating income, financial position and changes in net position, and cash flows.

B. Measurement Focus and Basis of Accounting

The PID's financial activity is accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of the PID are included within the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Net Position presents increases (e.g., revenues) and decreases (e.g., expenses) in net position. The Statement of Cash Flows reflects how the PID finances and meets its cash flow needs.

Net Position is segregated into Net Investment in Capital Assets, Restricted, and Unrestricted components, if applicable.

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements, and measurement focus relates to the timing of the measurements made. The PID uses the accrual basis of accounting and the flow of economic resources measurement focus for reporting purposes. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

C. Cash and Cash Equivalents

Cash received by the PID is deposited with a financial institution or invested. Deposits and investments having an original maturity of three months or less at the time they are purchased are presented in the financial statements as Cash and Cash Equivalents.

D. Capital Assets

All capital assets are capitalized at cost and updated for additions and reductions during the year. Donated capital assets are recorded at their acquisition value on the date they will be donated. All infrastructure assets are capitalized. The PID does not depreciate capital assets as all assets are donated to the City upon completion.

E. Net Position

Net position represents the difference between assets, liabilities, and deferred inflows/outflows of resources. Net Position is reported as restricted when there are limitations imposed on its use either through enabling legislation adopted by the PID or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The PID first applies restricted resources when an expense is incurred for which both restricted and unrestricted resources are available.

F. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the PID. For the PID, these revenues are special assessments levied by the City annually and TIRZ contributions. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the PID. All revenues and expenses not meeting this definition are reported as non-operating.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

H. Income Taxes

The PID is a governmental entity, and therefore, is exempt from all federal and state income taxes.

I. New Accounting Standards

GASB Statement No. 100, *Accounting Changes and Error Corrections*, became effective in fiscal year 2024 and had no impact on the PID.

J. Future Accounting Standards

GASB has issued new standards that will become effective in future fiscal years. The PID will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

NOTE 3—CASH AND CASH EQUIVALENTS

Cash and cash equivalents consisted of the following as of September 30, 2024, and 2023:

	<u>2024</u>	<u>2023</u>
Money market funds	\$ 2,035,744	\$ 1,798,698
Total	<u>\$ 2,035,744</u>	<u>\$ 1,798,698</u>

A. Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the PID’s deposits may not be returned. There is no custodial credit risk to these accounts as the entire bank balance is required to be invested in accordance with the Public Funds Investment Act, Texas Government Code, Chapter 2256, as amended (the “Investment Act”) and as authorized by the City’s official investment policy.

As of September 30, 2024, cash and cash equivalents consist of investments in money market accounts. Such underlying securities are held by financial institutions in their trust departments in the PID’s name.

B. Interest Rate Risk

Interest rate risk is the risk that an interest rate change could adversely affect an investment’s fair value. As a means of limiting exposure to fair value losses arising from rising interest rates, the Indentures require the investment of moneys in all funds in accordance with the Investment Act and the City’s official investment policy.

C. Credit Risk

Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations. The Indentures specify that investments in time deposits or certificates of deposit must be secured in the manner required by law for public funds, or be invested in direct obligations of the United States of America, in obligations of any agencies or instrumentalities thereof, or in such other investments as are permitted under the Investment Act, provided that all such deposits and investments shall be made in such manner that the money required to be expended from any fund will be available at the proper time. For purposes of maximizing investment returns, to the extent permitted by law, money in all funds except those pertaining to the Phase #3 Bonds, may be invested in common investments of the kind described above, or in a common pool of such investments which shall be kept and held at an official depository bank. Investments at September 30, 2024 and 2023, were in compliance with the Indentures.

All funds held in the accounts created by the Indentures, which are on deposit with any bank, will be continuously secured in the manner required by the Indentures.

D. Concentration of Credit Risk

Concentration of credit risk can arise by failing to adequately diversify investments. The Investment Act establishes limitations on portfolio composition to control concentration of credit risk.

E. Recurring Measurements

The PID's investments in money market accounts are measured at the net asset value per share (or its equivalent) practical expedient. Accordingly, these investments have not been classified in the fair value hierarchy.

NOTE 4—CAPITAL ASSETS

There were no capital assets as of September 30, 2024, and 2023. Capital assets in the amount of \$23,439,483 from all phases issued prior to the Refunding Bonds were completed, accepted, and donated to the City in fiscal years 2016 through 2020. All donations were recorded as donated capital assets in the financial statements in the respective fiscal year. Public improvements completed consisted of road, water distribution system, sanitary sewer, and storm drainage improvements for the PID.

The Series 2014 Bonds were intended to be paid primarily from annual assessments imposed by the City and collected by the CCTAC on behalf of the City against the properties benefiting from the public improvements. If an annual assessment is not paid in full, the PID Act authorizes the City to collect interest and collections costs on the outstanding annual installment of assessments. The City covenanted in the Indentures that it will take and pursue all actions permissible under applicable laws to cause the annual assessments to be collected and any resulting liens enforced.

The Series 2014 Bonds are special obligations of the City payable solely from and secured by pledged revenues, consisting primarily of assessments. They are not payable from funds raised or to be raised from taxation.

In addition, TIRZ revenues were collected by the City from each parcel of assessed property that pays City taxes, which was used to pay the Series 2014 Bonds.

NOTE 6—REVENUES

Annual assessments are to be imposed and collected on all properties within the PID benefiting from the public improvements (excepting those for which the assessment lien has been prepaid), to pay debt service and operating costs of the PID. The annual assessments are remitted to the PID monthly as they are received by the CCTAC on behalf of the City. The amount assessed, generally, is equal to: (i) annual debt service and administrative expenses, less (ii) other amounts available for the payment of such debt service and expense. The other amounts available include TIRZ revenues paid by the City to reduce the annual installment, the amount of which is calculated each year based on the Service and Assessment Plan (the “SAP”). Annual installments of special assessments are payable to the City no later than February 1 of each year.

Annual assessments totaling \$1,328,718 and \$1,631,765 were billed for the 2023-2024 and 2022-2023 assessment years, respectively. The 2023-2024 annual installments of assessments were payable in fiscal year 2024, and the 2022-2023 annual installments of assessments were payable in fiscal year 2023.

Assessments	2024	2023
Phase #1 Bonds	\$ 476,830	\$ 492,529
Phase #1B Bonds	-	76,737
Phase #2 Bonds	464,542	474,788
Phases #2-3 Bonds	173,214	364,692
Phase #3 Bonds	214,132	223,019
Total	<u>\$ 1,328,718</u>	<u>\$ 1,631,765</u>

As of September 30, 2024, \$817 was delinquent from the 2023-2024 assessment year. All annual installments of assessments due in fiscal year 2023 have been remitted to the PID.

No prepaid assessment revenues were received in fiscal year 2024. Prepaid assessment revenues of \$10,776 were collected from property owners in fiscal year 2023. There were no redemptions in fiscal years 2024 or 2023 as a result of these prepayments.

TIRZ revenues are collected by the City from each parcel of assessed property that pays City taxes. A portion of the taxes paid on each individual parcel (TIRZ contribution percentage) is used to calculate that parcel's TIRZ annual credit for the following year. The TIRZ contribution reduces the amount of annual installments and assists in the repayment of the PID Bonds. The annual TIRZ contribution for the 2023-2024 and 2022-2023 tax levies is as follows:

<u>TIRZ Revenues</u>	<u>2024</u>	<u>2023</u>
Phase #1 Bonds	\$ 416,892	\$ 303,372
Phase #1B Bonds	-	152,262
Phase #2 Bonds	-	-
Phases #2-3 Bonds	389,997	329,332
Phase #3 Bonds	-	-
Total	<u>\$ 806,889</u>	<u>\$ 784,966</u>

NOTE 7—ARBITRAGE

When applicable, arbitrage calculations are performed on the PID's funds to determine any arbitrage rebate or yield restriction liability. No liabilities for arbitrage rebate or yield restriction were identified in the fiscal years ending September 30, 2024, and 2023.
