

# Platinum Flooring

## V-8 Hybrid XT or 6.0 Epoxy Platinum Systems

### Unique!

Want a unique floor in your space? V-8 High Performance Floors Platinum System gives a smooth, glass like finish with some depth. It can be applied with our Hybrid XT (Xtra Tough) resin or our 6.0 High Performance Epoxy. The Platinum System is longer lasting yet still can be made to resemble concrete stains or many other looks.

### Creativity At Its Finest!

No two floors are the same. Many things can be done during the installation to change the look. Multiple colors can be used for extra depth, 3-d looks, and other different effects. There are endless creative possibilities to create a style that is all your own.

### Where has it been used?

- Restaurants
- Retail Spaces
- Garages
- Basements
- Schools
- Bars
- Man Caves
- Entryways
