If yes, please provide a copy.

Date of most recent pumping/repair: \_\_\_\_\_ # of bedrooms: \_\_\_\_\_ # of people: \_\_\_\_\_

Do you have a water treatment system?  Yes  No \*Location of discharge: \_\_\_\_\_

**The Wicomico County Health Department has my permission to enter onto this property to perform such tests as necessary in order to adequately site and size this proposed replacement septic system. I understand this process may require me to locate my own well, other wells on neighboring properties, and my property boundary lines. Non residential uses will require an engineer or qualified consultant to submit a proposed system design. Septic contractors must be licensed in Wicomico County. At-grade mounds and sand mounds require additional certifications from the Maryland Department of the Environment.**

Do you wish to be contacted prior to the site visit?  Yes  No

**No refunds will be granted once field work has begun or after 30 days from application date.**  
**There will be a \$50.00 fee on all NSF checks.**
