Inventory of Health Data Sources

Brought to you by the Data Subcommittee of the Wicomico County Behavioral Health Workgroup
Last Updated August 2022

This resource was created to help make it easier to find health data. We need data to improve the health of our community. Data helps us better understand people and make informed decisions to address their needs. Data is also needed for grants, research, program development and more.

This resource list contains health data sources from national, state and local sources. It also contains social determinants of health data - data related to employment, housing, economy, etc. This resource list is organized alphabetically by the organization(s) responsible for the information.

This inventory will be reviewed and updated at least annually. We recognize some sources may have been missed, so if you know of additional sources to add, please contact the Wicomico Local Behavioral Health Authority at (410) 543-6981.

Organization(s) Responsible for Information	Name of Data Source	Description	Website
211 Helpline Maryland	211 Helpline Website	211 Counts provides statistics by state. Each state lists on their dashboard the top services requests and pressing needs within the community.	https://211counts.org/home/index
Agency for Healthcare Research and Quality (AHRQ)	Healthcare Cost and Utilization Project (HCUP, pronounced "H-Cup")	The HCUP is a family of healthcare databases and related software tools and products developed through a Federal-State-Industry partnership and sponsored by the Agency for Healthcare Research and Quality (AHRQ). HCUP includes the largest collection of longitudinal hospital care data in the United States, with all-payer, encounter-level information beginning in 1988. These databases enable research on a broad range of health policy issues, including cost and quality of health services, medical practice patterns, access to healthcare programs, and outcomes of treatments at the national, State, and local market levels.	https://www.hcup-us.ahrq.gov/
Agency for Healthcare Research and Quality (AHRQ) and Centers for Medicare & Medicaid Services	United States Health Information Knowledgebase (USHIK)	The USHIK is a metadata registry of healthcare-related data standards funded and directed by the Agency for Healthcare Research and Quality (AHRQ) with management support in partnership with the Centers for Medicare & Medicaid Services.	https://ushik.ahrq.gov/mdr/portals

American Hospital Association (AHA)	AHA Hospital Statistics	The AHA conducts an annual survey of hospitals in the U.S. The definitive source for aggregate hospital data and trend analysis, AHA Hospital Statistics includes current and historical data on utilization, personnel, revenue, expenses, community health indicators, physician models, and much more. The website link provides an interactive dashboard.	https://guide.prod.iam.aha.org/stats/
Annie E. Casey Foundation	Kids Count Data Center	KIDS COUNT is a project of the Annie E. Casey Foundation and a premier source of data on children and families. Each year, the Foundation produces a comprehensive report — the KIDS COUNT Data Book — that assesses child well-being in the United States. The indicators featured in the Data Book are also available in the Data Center.	https://datacenter.kidscount.org/
Annie E. Casey Foundation, Morehouse School of Medicine, Google, Gilead Sciences, and CDC Foundation	Health Equity Tracker	The Health Equity Tracker is a portal that collects, analyzes, and makes visible data on some of the inequities entrenched in U.S. medicine.	https://healthequitytracker.org/
Centers for Disease Control and Prevention (CDC)	Behavioral Risk Factor Surveillance System (BRFSS)	The BRFSS is a system of health-related telephone surveys that collect data about U.S. residents regarding their health-related risk behaviors, chronic health conditions, and use of preventative services. Established in 1984, BRFSS completes more than 400,000 adult interviews per year, making it the largest continuously conducted health survey in the world. Data are collected monthly in all 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and Guam.	https://www.cdc.gov/brfss/annual_data/annual_data.htm
Centers for Disease Control and Prevention (CDC)	Mental Health Household Pulse/Survey (Anxiety/Depression during COVID-19)	The National Center for Health Statistics (NCHS) partnered with the Census Bureau on an experimental data system called the Household Pulse Survey. This 20-minute online survey was designed to complement the ability of the federal statistical system to rapidly respond and provide relevant information about the impact of the coronavirus pandemic in the U.S. The data collection period for Phase 1 of the Household Pulse Survey occurred between April 23, 2020 and July 21, 2020. Phase 2 data collection occurred between August 19, 2020 and October 26, 2020. Phase 3 of the Household Pulse Survey began data collection on October 28, 2020.	https://www.cdc.gov/nchs/covid19/pulse/mental-health.htm

Centers for Disease Control and Prevention (CDC)	Morbidity and Mortality Weekly Report (MMWR)	The MMWR series, is the CDC's primary vehicle for scientific publication of timely, reliable, authoritative, accurate, objective, and useful public health information and recommendations.	https://www.cdc.gov/mmwr/index.html
Centers for Disease Control and Prevention (CDC)	National Youth Tobacco Survey (NYTS)	The NYTS datasets are available for public use so that researchers and public health managers can explore the data in detail. In addition, states can compare their estimates of prevalence of youth tobacco use with national data. The NYTS provides nationally representative data about middle and high school youth's: Tobacco-related beliefs, Attitudes, Behaviors, and Exposure to pro- and anti-tobacco influences.	https://www.cdc.gov/tobacco/data_statistics/surveys/nyts/index.htm
Centers for Disease Control and Prevention (CDC)	Youth Risk Behavior Surveillance System (YRBSS)	YRBSS monitors six categories of health-related behaviors that contribute to the leading causes of death and disability among youth and adults, including— • Behaviors that contribute to unintentional injuries and violence • Sexual behaviors related to unintended pregnancy and sexually transmitted diseases, including HIV infection • Alcohol and other drug use • Tobacco use • Unhealthy dietary behaviors • Inadequate physical activity YRBSS also measures the prevalence of obesity and asthma and other health-related behaviors plus sexual identity and sex of sexual contacts.	https://www.cdc.gov/healthyyouth/data/yrbs/index.htm
Centers for Disease Control and Prevention (CDC)	CDC Data & Statistics	Provides links for data and statistics by topic such as: Alcohol Use, Diabetes, Oral Health, Smoking and Tobacco, etc. Also provides links for numerous data tools.	https://www.cdc.gov/DataStatistics/
Centers for Disease Control and Prevention (CDC)	CDC WONDER (Wide-ranging ONline Data for Epidemiologic Research)	CDC WONDER manages nearly 20 collections of public-use data for U.S. births, deaths, cancer diagnoses, tuberculosis cases, vaccinations, environmental exposures, and population estimates, among many other topics. These data collections are available as online databases, which provide public access to ad-hoc queries, summary statistics, maps, charts, and data extracts. Most of the data are updated annually; some collections are updated monthly or weekly.	https://wonder.cdc.gov/

Centers for Disease Control and Prevention (CDC)	National Center for Health Statistics (NCHS)	The NCHS conducts a wide range of annual, periodic, and longitudinal sample surveys and administers the national vital statistics systems. NCHS compiles statistical information to help guide public health and health policy decisions.	https://www.cdc.gov/nchs/
Centers for Disease Control and Prevention (CDC)	National Health and Nutrition Examination Survey (NHANES)	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States. The survey is unique in that it combines interviews and physical examinations.	https://www.cdc.gov/nchs/nhanes/index.htm
Centers for Disease Control and Prevention (CDC)	Nationals Health Interview Survey (NHIS)	Since 1957 the NHIS has monitored the health of the nation. Data on a broad range of health topics are collected through personal household interviews. Survey results have been instrumental in providing data to track health status, health care access, and progress toward achieving national health objectives.	https://www.cdc.gov/nchs/nhis/index.htm
Centers for Disease Control and Prevention (CDC)	Opioid Data Analysis and Resources	Numerous resources related to Opioid deaths and non-fatal overdoses. Includes an annual surveillance report on prescription and illicit drug-related risks and outcomes.	https://www.cdc.gov/drugoverdose/data/analysis.html
Centers for Disease Control and Prevention (CDC)	Vital Statistics Online Data Portal	This site provides detailed and downloadable birth and fetal death data along with selected birth data.	https://www.cdc.gov/nchs/data_access/vitalstatsonline.htm
Centers for Disease Control and Prevention (CDC)	WISQARS™ — Web-based Injury Statistics Query and Reporting System	CDC's WISQARS™ is an interactive, online database that provides fatal and nonfatal injury, violent death, and cost of injury data. Researchers, the media, public health professionals, and the public can use WISQARS™ data to learn more about the public health and economic burden associated with unintentional and violence-related injury in the United States.	https://www.cdc.gov/injury/wisqars/

Centers for Diseases Control and Prevention (CDC) and Maryland Department of Health (MDH)	Maryland Behavioral Risk Factor Surveillance System (MD-BRFSS) - Maryland and County level data	The Maryland Behavioral Risk Factor Surveillance System (BRFSS) is an ongoing telephone-based chronic disease surveillance program designed to collect data on the behaviors and conditions that place Maryland adults at risk for chronic diseases, injuries, and preventable infectious diseases. Maryland BRFSS also collects information on health care access and health disparities. The typical sample size is over 10,000 non-institutionalized Maryland residents age 18 and older per year.	https://phpa.health.maryland.gov/ccdpc/Reports/Pages/brfss.aspx
Centers for Diseases Control and Prevention (CDC) and Maryland Department of Health (MDH) and Maryland Department of Education (MSDE)	Maryland Youth Risk Behavior Survey/Youth Tobacco Survey (MD-YRBS/YTS) - Maryland and County level data	The Maryland YRBS/YTS is an on-site survey of students in Maryland public middle and high schools, focusing on behaviors that contribute to the leading causes of death and disability, including but not limited to, alcohol and other drug use, tobacco use, sexual behaviors, unintentional injuries and violence, and poor physical activity and dietary behaviors. The YRBS/YTS is a combination of CDC's Youth Risk Behavior Survey (YRBS) and Youth Tobacco Survey (YTS) and is administered every even year during the fall semester to measure and monitor youth risk behaviors.	https://phpa.health.maryland.gov/ccdpc/Reports/Pages/YRBS-Main.aspx
Centers for Medicare & Medicaid Services (CMS)	CMS Data Navigator	This site gives you direct access to public data released by the Centers for Medicare & Medicaid Services (CMS). Our goal is to make our data readily available in open, accessible, and machine-readable formats.	https://data.cms.gov/
Chesapeake Regional Information System for our Patients (CRISP)	CRISP Reporting Services (CRS) Public Health Dashboard	Requires authorization by CRISP to access dashboard. CRS reports are available to partnering hospitals, public health departments, regional partnerships, and ambulatory providers. All prospective CRS participants must first be authenticated and confirmed through their partnering organization. The CRS Public Health Dashboard is designed for individuals working on population health and public health, who want a deeper understanding of the communities health. Users can analyze Maryland hospital utilization and filter on metrics of interest such as demographics, conditions, geography, payer type, utilization type, and much more.	crisphealth.org

Chesapeake Regional Information System for our Patients (CRISP) and The Maryland Department of Health, Public Health Services	Prescription Drug Monitoring Program (PDMP)	The PDMP is available for free to qualified prescribers, pharmacists, and delegates of prescribers or pharmacists. The PDMP monitors dispensed drugs that contain controlled dangerous substances (CDS). The goal of the PDMP is to assist medical, pharmacy, and public health professionals in the identification and prevention of prescription drug abuse. It also promotes a balanced use of prescription data that preserves the professional practice of healthcare providers and legitimate access to optimal pharmaceutical care.	https://www.crisphealth.org/applications/prescription-drug-monitoring-program-pdmp/
Executive Office of the President of the United States	Office of National Drug Control Policy (ONDCP)	ONDCP works to reduce drug use and its consequences by leading and coordinating the development, implementation, and assessment of U.S. drug policy. The website provides budget and performance summaries by fiscal years, performance reporting system information, annual accounting reports, a drug control data dashboard, a data supplement on drug use and availability, and more.	https://www.whitehouse.gov/ondcp
Health Communication Research Laboratory	Covid-19 Website	Links provided reporting on social needs during Covid-19 powered by 211. Included are latest reports, milestones, monthly trends, policy impact, region specific, special populations, childcare, Covid-19, employment, food, healthcare, housing, mental health, transportation, and utilities information.	https://hcrl.wustl.edu/1088-2/
Health Resources & Services Administration (HRSA)	data.HRSA.gov	HRSA provides an interactive dashboard to explore data and maps on HRSA's Health Care Programs including health centers, maps, data queries, shortage areas, fact sheets and downloadable data.	https://data.hrsa.gov/
Health Resources & Services Administration (HRSA)	Health Professional Shortage Area (HPSA) Find Tool	The Health Professional Shortage Area (HPSA) Find tool displays data on the geographic, population, and facility HPSA designations throughout the U.S.	https://data.hrsa.gov/tools/shortage-area/hpsa-find
Health Resources & Services Administration (HRSA)	Medically Underserved Areas/Populations (MUA/MUP) Find Tool	Provides data on MUA/MUP - areas or populations designated by HRSA as having too few primary care providers, high infant mortality, high poverty or a high elderly population.	https://data.hrsa.gov/tools/shortage-area/mua-find

Health Resources & Services Administration (HRSA) and Census Bureau and National Center for Health Statistics at the Centers for Disease Control (CDC), and Child and Adolescent Health Measurement Initiative (CAHMI)	National Survey of Children's Health (NSCH)	The annual NSCH examines the physical and emotional health of children ages 0-17 years of age. It also assesses health insurance coverage, health care access and quality, community and school activities, family health, neighborhood safety and support, and child and family demographics. The first website link is to the Data Resource Center (DRC) which contains national and state findings from this survey. Data can be explored via a hands-on interactive data query tool. The second website link is from the U.S. Census Bureau and allows access to the public use NSCH microdata files.	https://www.childhealthdata.org/browse/survey https://www.census.gov/programs-surveys/nsch/data.html
Kaiser Family Foundation	Opioid Overdose Deaths by Race/Ethnicity	Opioid Overdose Death Data available for U.S. and by state	https://www.kff.org/other/state-indicator/opioid-overdose-deaths-by-raceethnicity/?currentTimeframe=0&sortModel=%7B%22colId%22:%22Location%22,%22sort%22:%22asc%22%7D
Kaiser Family Foundation	State Health Facts	State Health Facts has more than 800 health indicators for all 50 states, Washington, D.C., U.S. Territories, and other locations. Users can view maps, relative health rankings, trends, and download data on demographics, health costs, health coverage, minority health, providers and service use, and more.	https://www.kff.org/statedata/

Maryland Department of Health (MDH) Behavioral Health Administration	MDH Behavioral Health Administration: Crystal Reports	Reports available on this page: 1. **Data Request for PBHS Claims Data** - Requires permission to access from the Maryland Behavioral Health Administration. Data is paid claims data for behavioral health services received by individuals with Medicaid or uninsured benefits. Data is available by the State of Maryland and by Maryland counties, by service type and age categories. Provides the number of consumers that received each service as well as the expenditures for each service. At this time, demographic data is not provided other than age breakdowns. 2. **Maryland Behavioral Health Workforce Survey** - Published September 2020. Stakeholder survey on behavioral health workforce needs in throughout the state. 3. **Program Briefs** - Opioid Treatment Program Needs Assessment, published September 2021. Findings are the current capacity and need for OTP's throughout the state. 4. **State Psychiatric Inpatient Facility Monthly Reports** - Fiscal year to date monthly report. Provides aggregate data on admissions and discharges for the state IP facilities.	https://bha.health.maryland.gov/Pages/Data-and-Data-Reports.aspx
Maryland Department of Health (MDH) Office of Population Health Improvement	MDH Overdose Data and Reports	The Maryland Department of Health releases data and reports on drug and alcohol-related fatalities in the state (data also provided by county).	https://health.maryland.gov/vsa/Pages/overdose.aspx
Maryland Department of Health (MDH) Office of the Chief Medical Examiner	Maryland State Health Improvement (SHIP) Data	The Maryland SHIP measures represent what it means for Maryland to be healthy. Data is available by county. This is illustrated through a dashboard that captures data for 41 health-related measures organized in five Vision Areas. The Vision Areas of SHIP include: Health Beginnings, Health Living, Health Communities, Access to Health Care and Quality Preventative Care. Since launching in 2012, new measures have been added to the SHIP data dashboard that better reflect the social determinants of health while other measures have been removed or modified as better data has become available.	https://pophealth.health.maryland.gov/Pages/SHIP-Lite-Home.aspx
Maryland Department of Health (MDH) Office of the Chief Medical Examiner	Office of the Chief Medical Examiner (OCME) Annual Reports	This website has Maryland annual reports of the deaths investigated by OCME, including deaths that are sudden and unexpected, result from injury, occur under unexplained or suspicious circumstances, or when a person is not attended by a physician. Latest Data: 2018	https://health.maryland.gov/ocme/Pages/Reports.aspx

Maryland Department of Health (MDH) Prevention and Health Promotion Administration	Maryland Sexually Transmitted Infections	Data providing a thorough surveillance profile of chlamydia, gonorrhea, and syphilis for Maryland and Maryland counties. Latest Annual Data: 2019. Latest ZIP Code Data: 2018.	https://phpa.health.maryland.gov/OIDPCS/CSTIP/Pages/STI-Data-Statistics.aspx
Maryland Department of Health (MDH) Vital Statistics Administration	Maryland Vital Statistics and Reports	Maryland annual vital statistics reports, infant mortality reports and live birth data, as well as additional jurisdictional data. Latest Annual Data: 2020.	https://health.maryland.gov/vsa/Pages/reports.aspx
Maryland Department of Labor	Unemployment Insurance Initial Claims by County	Provides a weekly report of total unemployment insurance claims filed by each county in Maryland. Data is current through previous week.	https://www.dllr.state.md.us/employment/uicounty.shtml
Maryland Manual On-Line	Maryland Unemployment Rates	This link provides the annual unemployment rates for Maryland and each of its 24 jurisdictions from 1990 to the present. Latest Data: 2021.	https://msa.maryland.gov/msa/mdmanual/01glance/economy/html/unemployrates.html
Maryland Motor Vehicle Administration	Maryland Traffic Safety Data	Jurisdictional level data is published related to alcohol and drug impaired crashes.	https://zerodeathsmd.gov/resources/crashdata/
Mental Health America (MHA)	MHA's County and State Data Project	For years, MHA has been providing free, anonymous, clinically-validated mental health screens on our website, MHAScreening.org. Now, for the first time, our researchers and corporate partners at Lundbeck are geographically analyzing the results from millions of those mental health screens and showing you the data in near real-time. This is the largest dataset of its kind, and now you can explore it at the state and county level on our powerful dashboard and in four comprehensive briefs. The applications for this information are limitless. It can educate community leaders about areas in need of more mental health resources, assist policymakers in effectively directing state and local funding, and allow researchers to see a clearer picture of the country's mental health landscape. Latest Data: 2022.	https://mhanational.org/mha-state-county-data?eType=EmailBlastContent&eId=eaa9d1e6-2655-4c64-9342-3ce7a647af03

National Association of County and City Health Officials (NACCHO)	Public Health Best Practices	NACCHO's Model Practices Program nationally honors and recognizes outstanding local public health practice and shares the outstanding practices through the Model Practices Database. The database is a collection of innovative best practices across public health areas. Includes proven initiatives, programs, resources, administrative practices and tools that address local public health needs. NACCHO solicits submissions about innovative programs or practices to add to the database. To view a video of features and functions of the database, go to: http://www.naccho.org/topics/modelpractices/loader.cfm?csModule=security/getfile&pageid=238047	https://eweb.naccho.org/eweb/DynamicPage.aspx?site=naccho&webcode=mpsearch
National Highway Traffic Safety Administration (NHTSA)	National Center for Statistics and Analysis (NCSA)	The National Center for Statistics and Analysis (NCSA), an office of the National Highway Traffic Safety Administration (NHTSA), is responsible for providing a wide range of analytical and statistical support to NHTSA and the highway safety community at large, in the general areas of: • Human, vehicle, environmental, and roadway characteristics, as they relate to crash frequency and injuries; • Identifying injury mechanisms and associated crash dynamics in motor vehicle crashes; • Evaluating the effectiveness of crashworthiness, crash avoidance, and traffic safety efforts; • Monitoring the magnitude of the traffic safety problem; and • Quantifying the benefits resulting from proposed agency rules.	https://cdan.nhtsa.gov/
National Institute of Mental Health (NIMH), National Institutes of Health (NIH)	National Institute of Mental Health (NIMH)	The NIMH is the lead federal agency for research on mental disorders. Site contains national level statistics on: Mental Illness, Anxiety Disorder, Depression, PTSD, Suicide, and more.	https://www.nimh.nih.gov/health/statistics
National Institute on Alcohol Abuse and Alcoholism (NIAAA), National Institutes of Health (NIH)	National Institute on Alcohol Abuse and Alcoholism (NIAAA)	The National Institute on Alcohol Abuse and Alcoholism Data Archive (NIAAADA) is a data repository that houses and shares human subjects data generated by NIAAA-funded research.	https://www.niaaa.nih.gov/

National Institute on Drug Abuse (NIDA), National Institutes of Health (NIH)	National Institute on Drug Abuse (NIDA)	An online, searchable collection of innovative best practices across public health areas. Includes proven initiatives, programs, resources, administrative practices and tools that address local public health needs. NACCHO solicits submissions about innovative programs or practices to add to the database. To view a video of features and functions of the database, go to:	https://www.drugabuse.gov/
National Institute on Drug Abuse, National Institutes of Health, and University of Michigan	Monitoring the Future Survey	Monitoring the Future is an ongoing study of the behaviors, attitudes, and values of Americans from adolescence through adulthood. Each year, a total of approximately 50,000 8th, 10th and 12th grade students are surveyed (12th graders since 1975, and 8th and 10th graders since 1991). In addition, annual follow-up questionnaires are mailed to a sample of each graduating class for a number of years after their initial participation.	http://www.monitoringthefuture.org/
National Institutes of Health (NIH)	National Institutes of Health (NIH) Institutes, Centers and Offices	NIH is a part of the U.S. Department of Health and Human Services. NIH is the largest biomedical research agency in the world. It has over twenty institutes focusing on specific health topics (e.g. cancer, drug abuse, mental health, etc.).	https://www.nih.gov/institutes-nih/list-nih-institutes-centers-offices
National Library of Medicine (NLM), National Institutes of Health	National Library of Medicine (NLM)	NLM is the world's largest biomedical library and a leader in research in computational health informatics. NLM plays a pivotal role in translating biomedical research into practice. NLM's research and information services support scientific discovery, health care, and public health.	https://www.nlm.nih.gov/
Office of the Chief Medical Examiner (OCME)	Overdose Deaths Website	Office of the Chief Medical Examiner surveillance reports on the prevalence of opioid-related fatal overdoses.	https://ocme.dc.gov/publication/ocme-surveillance-reports-opioid-related-fatal-overdoses
Robert Wood Johnson Foundation and University of Wisconsin Population Health Institute	County Health Rankings and Roadmaps	An interactive online application that ranks the overall health status of almost every U.S. county. The County Health Rankings are based on a model of community health that emphasizes the many factors that influence how long and how well we live. The Rankings use more than 30 measures that help communities understand how healthy their residents are today (health outcomes) and what will impact their health in the future (health factors).	https://www.countyhealthrankings.org/

Somerset County Health Department TidalHealth Peninsula Regional Wicomico County Health Department	Somerset, Wicomico and Worcester Counties Community Health Needs Assessment	This community health needs assessment (CHNA) is for the three lower shore Maryland Counties of Somerset, Wicomico and Worcester. The CHNA, sometimes referred to as community health assessment (CHA), is completed every three years in partnership between Somerset County Health Department, TidalHealth Peninsula Regional and Wicomico County Health Department. It identifies key health needs and issues of Somerset, Wicomico and Worcester counties. The assessment involves a systematic, comprehensive data collection and analysis of primary and secondary data sources including local, state and federal data.	http://online.fliphtml5.com/cxbl/wkij/#p=1
Somerset County Health Department (SCHD)	SCHD Statistics and Reports	SCHD provides links to numerous agency reports and statistics.	https://somersethealth.org/press/home-page-news-events/
Substance Abuse and Mental Health Services Administration (SAMHSA)	Drug Abuse Warning Network (DAWN)	DAWN was a drug-related public health surveillance system, focused on the impact of drug misuse in the Nations' health care system by monitoring drug-related visits to hospital emergency departments. The DAWN system stopped collecting data after 2011.	https://www.samhsa.gov/data/data-we-collect/dawn-drug-abuse-warning-network
Substance Abuse and Mental Health Services Administration (SAMHSA)	National Mental Health Services Survey (N-MHSS)	N-MHSS is an annual survey to collect information on the location, organization, structure, services, and utilization of mental health treatment facilities. It is designed to collect statistical information on all known mental health treatment facilities in the United States. This includes the 50 states, the District of Columbia, and all U.S. territories. Every other year, starting in 2014, N-MHSS also collects information on the numbers and demographics of persons served in these treatment centers. N-MHSS complements the information gathered through the National Survey of Substance Abuse Treatment Services (N-SSATS).	https://www.samhsa.gov/data/data-we-collect/n-mhss-national-mental-health-services-survey
Substance Abuse and Mental Health Services Administration (SAMHSA)	National Survey of Substance Abuse Treatment Services (N-SSATS)	N-SSATS is an annual census of treatment facilities. Information is collected on the location, organization, structure, services, and utilization of substance abuse treatment facilities in the United States. The data are used for program administration and policy analysis.	https://www.samhsa.gov/data/data-we-collect/n-ssats-national-survey-substance-abuse-treatment-services

Substance Abuse and Mental Health Services Administration (SAMHSA)	National Survey on Drug Use and Health (NSDUH)	The National Survey on Drug Use and Health (NSDUH) is a primary source of data on behavioral health among U.S. households. It is used to identify prevalence, trends, and consequences of alcohol, tobacco, and illegal drug use and abuse in the general U.S. civilian non-institutionalized population, aged 12 and older.	https://www.datafiles.samhsa.gov/study-series/national-survey-drug-use-and-health-nsduh-nid13517
Substance Abuse and Mental Health Services Administration (SAMHSA)	SAMHSA Data and Dissemination Home Page	SAMHSA's home page for the Center for Behavioral Health Statistics and Quality (CBHSQ), the lead Federal government agency for behavioral health data and research. This page provides links to SAMHSA's latest reports as well as tools to interact, analyze and download their data. You can also search for data on a certain topic such as depression, marijuana, etc.	https://www.samhsa.gov/data/
Substance Abuse and Mental Health Services Administration (SAMHSA)	Substance Abuse and Mental Health Data Archive (SAMHDA)	SAMHDA is a public resource for the collection, analysis, and dissemination of SAMHSA's behavioral health data. If you're looking for data files, the SAMHDA site provides questionnaires, codebooks, and datasets for multiple studies. If you're looking for publications, SAMHDA has links to these as well as a searchable database of bibliographic citations.	https://www.datafiles.samhsa.gov/
The Hilltop Institute and University of Maryland Baltimore County (UMBC) and Maryland Department of Health (MHD)	Maryland Medicaid eHealth Statistics	Medicaid health care statistics for the state of Maryland, maintained by The Hilltop Institute in partnership with the MDH. This website provides an overview of information representing Medicaid statistics in the State of Maryland.	https://www.hilltopinstitute.org/our-work/data-analytics/ https://www.hilltopinstitute.org/data/
U.S. Census Bureau	American Community Survey (ACS)	The ACS is an ongoing survey that provides vital information on a yearly basis about our nation and its people. Sent to a sample of addresses in USA. Asks about topics not on the 2020 Census, such as education, employment, internet access, and transportation. Provides current information to communities every year. It also provides local and national leaders with the information they need for programs, economic development, emergency management, and understanding local issues and conditions.	https://www.census.gov/programs-surveys/acs

U.S. Census Bureau	Census of Governments	The Census of Governments occurs every five years since 1957, for years ending in "2" and "7." It provides comprehensive data about the nearly 90,000 state and local governments in the nation.	https://www.census.gov/programs-surveys/cog.html
U.S. Census Bureau	County Population Totals, 2010-2020	This page features all the files containing Vintage 2019 county population totals and components of change.	https://www.census.gov/data/tables/time-series/demo/popest/2010s-counties-total.html
U.S. Census Bureau	Data.Census.Gov	Data.census.gov is the new platform to access demographic and economic data from the U.S. Census Bureau. The vision for data.census.gov is to improve the customer experience by making data available from one centralized place so that data users spend less time searching for data and content, and more time using it.	https://www.census.gov/data.html
U.S. Census Bureau	Decennial Census of Population and Housing	The U.S. census counts each resident of the country, where they live on April 1, every ten years ending in zero. The Constitution mandates the enumeration to determine how to apportion the House of Representatives among the states.	https://www.census.gov/programs-surveys/decennial-census.html
U.S. Census Bureau	Economic Census	The Economic Census measures the nation's economy every five years, providing vital statistics for virtually every industry and geographic area in the country.	https://www.census.gov/programs-surveys/economic-census.html
U.S. Census Bureau	QuickFacts	QuickFacts provides statistics for all states and counties, and for cities and towns with a population of 5,000 or more.	https://www.census.gov/quickfacts/fact/table/US/PST045219
U.S. Department of Education	National Center for Education Statistics (NCES)	NCES is the primary federal entity for collecting and analyzing data related to education in the U.S. and other nations. NCES is mandated to collect, collate, analyze, and report complete statistics on the condition of American education; conduct and publish reports; and review and report on education activities internationally.	https://nces.ed.gov/

U.S. Department of Health and Human Services (HHS), Office of Disease Prevention and Health Promotion (ODPHP)	Healthy People 2030	Healthy People identifies public health priorities to help individuals, organizations, and communities across the United States improve health and well-being. Healthy People 2030, the initiative's fifth iteration, builds on knowledge gained over the first 4 decades. Data can be used: to set goals for your programs, as benchmark data, to inform policy and program planning, etc. Also has database of evidence based resources.	https://www.healthypeople.gov/
U.S. Department of Health and Human Services (HHS), Office of the Chief Data Officer	HealthData.Gov	This site is dedicated to making data discoverable and making valuable government data available to the public in the hopes of better health outcomes for all. Data is available on a wide range of topics, including environmental health, medical devices, Medicare & Medicaid, social services, community health, mental health, and substance abuse. The data is collected and supplied from agencies from the U.S. Department of Health and Human Services as well as state partners. This includes the Centers for Medicare and Medicaid Services, Centers for Disease Control and Prevention, Food and Drug Administration, and the Agency for Health Care Research and Quality, among others.	https://healthdata.gov/
U.S. Department of Justice	Bureau of Justice Statistics (BJS)	BJS collects, analysis and publishes data relating to crime in the United States. U.S. Department of Labor	Unemployment Claims Data	The Unemployment Insurance weekly claims data are used in current economic analysis of unemployment trends in the nation, and in each state. Initial claims measure emerging unemployment and continued weeks claimed measure the number of persons claiming unemployment benefits.	https://oui.doleta.gov/unemploy/claims.asp
U.S. Department of Labor	U.S. Bureau of Labor Statistics	The Bureau of Labor Statistics measures labor market activity, working conditions, price changes, and productivity in the U.S. economy to support public and private decision making.	https://www.bls.gov/

United Way	ALICE® Report	ALICE is an acronym for Asset Limited, Income Constrained, Employed. Through a standardized methodology that assesses the cost of living in every county, this project provides a comprehensive look at financial hardship across the United States. The earnings of ALICE individuals and families are not enough to support a "survival budget" that is more than twice the Federal Poverty Level (FPL). ALICE data is available on a national scale down to the local level.	https://www.unitedforalice.org/national-overview Lower Shore Data: https://www.uwles.org/ALICE
University of Maryland School of Pharmacy	Maryland Public Opinion Survey (MPOS) and Maryland Young Adults Survey on Alcohol (MYSA)	The Behavioral Health Resources and Technical Assistance (BHRTA) Program disseminates bi-annual surveys on alcohol and other drug use across Maryland. For more information on these surveys, contact BHRT@rx.umaryland.edu.	https://www.pharmacy.umaryland.edu/programs/bhrt/publications/
